PARIS—Formation of an international army to guarantee Austrian independence will be discussed by British, French and Czechoslovakian representatives tomorrow and Premier Doumergue warned the country to be prepared against "surprises."

LONDON—Germany and Italy inquired as to Great Britain's precise intentions if Austria's sovereignty were violated by a foreign power but are believed to have received a non-committal reply.

Airmail Contract Cancellations Stand

(BULLETIN)

(International News Service)

WASHINGTON, Feb. 15.—The post office department has no intention of reconsidering the cancellation of air mail contracts with one possible exception, Harlee Branch, second assistant postmaster general, told the house post office committee today.

The army, he said, probably will carry air mail for months.

New York, Feb. 15.—Newark airport began to look like an army post today as the government prepared

to take over the flying of the mail on Monday.

Meanwhile in Manhattan counsel for the government and the airlines prepared to argue a motion in federal court tomorrow asking the court to enjoin Postmaster General James A. Farley from cancelling the air mail contracts.

Action on the request of Arthur W. McMahon of Kew Gardens asking that Colonel Charles A. Lindbergh be court-martialed for his telegram of protest to the president awaited the return of Major General Dennis E. Nolan to Governors Island.

Post Office Contract Holder Makes Visit Here This Afternoon

A. W. Kuetsche, president of the general contracting firm which has the new post office contract "does not know" when the building of the post office will be resumed.

He does not know whether any steps are being taken to get the matter settled in the Treasury Department in Washington.

He does not know whether limestone or sandstone will be utilized to complete the building.

Kuetsche Evasive
In his answers to a representative of The News today Mr. Kuetsche was evasive to every question submitted, parried and parleyed and finally said he knew nothing about the whole matter and was waiting for someone to tell him when to start building again.

This question was asked: "Mr. Kuetsche are you willing to build the post office of sandstone as provided under the original contract?"

"We will have to do what we are told" was his reply.
"Do you think the postoffice will be started again inside of sixty days?"

"I hope so?"

"Have you any reason to believe that it will be started then or before then?"

"We would like to get it built."

"Are there any conferences being held now in Washington in an effort to get this job started again?"

"I do not know."

And there the matter stands. The postoffice has been down since October, the stone is beginning to stain with smoke and soot, the people of New Castle want the building erected, and Mr. Kuetsche apparently doesn't know anything about it.

Surprises Develop In Soles Murder Trial In Pittsburgh

POLICE OFFICER IS RELUCTANT WITNESS

(International News Service)
PITTSBURGH, Feb. 15.—Fighting to convict Robert S. Soles, McKeesport ex-army officer, of murder in connection with the death of his wife, Laroux, Prosecutor Jack Haggerty today charged the defendant had offered a bribe to two McKeesport police officers.

The bribe was alleged to have been made a few hours after his wife had been fatally shot in Soles' bedroom.

Haggerty brought out from a reluctant witness, Patrolman William R. Connelly, that twice within a few minutes Soles had made offers to the police. One of these, he testified, was when Soles indicated a wallet on the bedroom dresser and said:

"There's \$6,000 in negotiable paper in there."

Earlier, Connelly had testified he had heard a lieutenant tell Soles that "we can't take that, Bob. Put it away."

FRANKLIN, Pa., Feb. 15.—With the Allegheny river and French creek frozen solid for the first time in several years, it was indicated here today that there may be a possibility of a flood when the thaw comes.

Ice here is said to be from eight to ten inches thick. The river is frozen in below the two-foot gauge, a danger point, according to observer R. A. Fergus. Trainmen said the river between Pittsburgh and Franklin, north to Oil City, is a solid stretch of ice.

Erie Man And Young Daughter Die From Fumes

Man Despondent Over Lack Of Work Decides To Die And Takes Baby With Him

WIFE DISCOVERS TRAGEDY IN HOME

(International News Service)

ERIE, Pa., Feb. 15.—Failure to read a newspaper today was believed to have caused Archie Hoag, 27, to kill his 2-month-old daughter, Eleanor Ann, and take his own life.

Hoag thought his CWA job ended yesterday.

He is believed to have taken his daughter in his arms, turned on a gas jet and laid down on his bed.

Wife Overcome.
Hoag's wife was also overcome by the fumes when she came into the room and found the bodies. The trio was found by Mrs. Henry Bacholz who called police.

Mrs. Hoag was taken to St. Vincent's hospital. She is expected to recover, although still in critical condition. Hoag was discouraged because he had been out of work for several months and that there was no prospect of being paid this week and no further jobs in sight.

On the floor of the home, a newspaper delivered shortly before the pair died, told of the CWA being continued.

State Surveys Need For Help

Lawrence County School Districts Applying For Aid Will Be Quizzed

FIELD FORCE TO VISIT IN COUNTY

Lawrence county school districts, which are applying for aid from the state to help them out of their present financial difficulties, will have to show the State Department of Education that their need is acute.

So great has been the demand for assistance from all over the state, that Dr. James N. Rule, Superintendent of Public Instruction, has found that the entire five million dollar assistance fund, recently provided by the state legislature, will be inadequate to pay for back teachers' salaries and back tuition.

An inspector from the Department of Education is working in the county today, and will be joined by two more men tomorrow, who will sit in the office of County Superintendent of Schools John C. Syling, and will interview members of the township boards who are applying for funds to aid them.

Many county school districts still owe their teachers back salary for last year, have borrowed their state appropriation in advance, and now find their resources exhausted.

Demand on the Department of Public Instruction is so heavy that it is likely that only those districts in the worst shape will be aided.

Brittin To Serve Contempt Sentence

(BULLETIN)

(International News Service)

WASHINGTON, Feb. 15.—Col. L. H. Brittin, executive vice president of the Northwest Air Lines was taken through the portals of the gloomy old District of Columbia jail today to serve his ten day sentence for contempt of the Senate.

Washington, Feb. 15.—One of the two men sentenced by the Senate to ten days in jail for contempt—L. H. Brittin, executive vice president of the Northwest Air Lines—decided this afternoon not to fight any further.

His attorney, former assistant attorney general Seth W. Richardson, announced that Brittin would not carry the case to the United States supreme court, but would instead surrender himself today to the Senate sergeant-at-arms and begin a 10 day sentence in the District of Columbia jail.

Brittin was convicted along with William P. MacCracken, assistant secretary of commerce in the Hoover administration, for contempt of the Senate because they removed and destroyed documents in MacCracken's office which had been subpoenaed by the Senate.

Broken in spirit, the aged airways official told Richardson he preferred not to fight the decision of the Senate, but would rather begin serving his sentence at once.

Austria's Civil War Nearing Final Stages

SOCIALISTS SPURN OFFER OF TRUCE

Some Fighting Still Reported But Revolt Is Believed Fading

By HUDSON HAWLEY International News Service Staff Correspondent

VIENNA, Feb. 15.—Austria's bloody civil war entered the "mopping up" stage today.

Socialists spurned the truce offered by Chancellor Engelbert Dollfuss and continued sporadic shooting, but their resistance obviously was weakening.

Government troops were continuing their campaign of breaking up the Socialists' "nests" and driving them out of their entrenched positions. A high police official said today it was expected at least six days would be required to stamp out the last vestige of resistance.

The appeal of Chancellor Dollfuss to the Socialists, who have fought the government through three bitter days that took toll of thousands of lives to surrender was virtually ignored.

Robbers early this morning looted the McFate & Lockhart Wholesale company warehouse, South Croton avenue, of cigarettes valued at approximately \$550. The thieves escaped. City detectives today were trying to discover clues.

About 2:20 a. m., City Patrolman Robert Dukes found the side door of the warehouse open and started an investigation. He saw two men near the Moody company and they fled. He fired several shots in their direction.

An investigation showed that a long ladder was placed on the frozen Neshannock creek, 15 feet below a rear window which led into the warehouse. The window was forced open, after which a rear door was unlocked and the robbers entered.

They worked undisturbed and succeeded in getting away with 10 cases of cigarettes of all kinds. Each case was valued approximately at \$50.00, according to wholesale house officials. The men, it is believed, returned for a second load.

KELLY DISCUSSES FUTURE OF AIR MAIL

Air Mail Backer Gives His Ideas

Thinks Service Can Be Made Self-Sustaining Without U. S. Subsidies

BELIEVES PROGRAM SHOULD BE PLANNED

(What is the future of the air mail? In this article the man who is called "Father of the Air Mail" because he sponsored every air mail bill in congress except the one which has brought about the current investigation, outlines a policy by which he believes the air mail can be made self-sustaining. He opposes the administration's temporary plan.)

By REP. CLYDE KELLY (Member of Congress from Pennsylvania.)

(Written Expressly for International News Service.)

WASHINGTON, Feb. 15.—Now is the time to lay down a fundamental policy for a self-sustaining air mail service. We can have an air mail service without subsidy.

With the cooperation of the post office department legislation can be enacted in a few weeks. This would avoid the necessity for temporary emergency legislation which would be certain to result in disorganization of the entire mail service.

The proposal of the administration to permit the postmaster general to take arbitrary action and grant temporary contracts without advertising or competitive bidding will lead new dangers to the situation.

Would Eliminate Subsidy Cancellation of air mail contracts makes imperative legislation of a permanent and constructive nature.

HANEY'S

For more than a year I have had pending in congress a program for elimination of subsidy in the air mail system. The post office committee began hearings last April. Prior to that time, in the 72d Congress, the committee unanimously approved this legislation as a part of its investigation of the air mail system. Action on the bill was delayed in the last session by the post office department.

Now there should be immediate action to pass this or similar legislation. Under its provisions air mail carriers will be paid on the amount of mail actually carried. The present system, under the so-called Watres amendment, is payable on space regardless of the air mail transported. This system gave rise to injustice and the difficulties of the present are due to its operation.

If a two mill per pound rate were established and every contractor paid on that basis, the revenues produced would pay the cost of the air mail.

Reduction of the present 8-cent rate to five cents would increase volume and thus produce added revenues.

A few of the lines could not immediately operate on the two mill per pound basis. Therefore, a small additional mileage rate is provided and these companies would be given a definite period in which to bring mail volume to the paying point or give up their contracts.

WAKE UP YOUR LIVER BILE— WITHOUT CALOMEL

And You'll Jump Out of Bed in the Morning Rarin' to Go

If you feel sour and sunk and the world looks pink, don't swallow a lot of salts, mineral water, oil, laxative candy or chewing gum and expect them to make you suddenly sweet and buoyant and full of sunshine.

For they can't do it. They only move the bowels and a mere movement doesn't get at the cause. The reason for your down-and-out feeling is your liver. It should pour out two pounds of liquid bile into your bowels daily.

If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas builds up your stomach. You have a thick, bad taste and your breath is foul, skin often breaks out in blemishes. Your head aches and you feel down and out. Your whole system is poisoned.

It takes those good, old CARTER'S LITTLE LIVER PILLS to get those two pounds of bile flowing freely and make you feel "up and up." They contain wonderful, harmless, gentle vegetable extracts, amazing when it comes to making the bile flow freely.

But don't take liver pills. Ask for Carter's Little Liver Pills. Look for the name Carter's Little Liver Pills on the red label. Repeat a substitute. 25c at drug stores. ©1931 C. M. Co.

AUSTRIA'S CIVIL WAR NEARING FINAL STAGES

(Continued From Page One)

by the sharp sound of rifle fire that arose from the suburban sections of Stadlau, Kageran and Meidling.

It is estimated: at 2,000 well-armed members of the Schutzbund, the Socialist army, are still entrenched in Stadlau, whither they were driven after yesterday's battle in Floridsdorf. A large number also is entrenched at Kageran.

Possibility of reinforcement of these groups was seen in reports that from 8,000 to 10,000 Schutzbund members were assembled at Wienerneustadt, about forty miles from Vienna. It was rumored these forces planned a march on the capital.

Government Prepared The government, however, was amply prepared, it was believed, to resist any such invasion.

The military police and Heimwehr, which have united in fighting the Socialists, have marshaled a formidable equipment of artillery, rifles, ammunition and technical implements of war. Against these the Socialists, with only a motley assortment of arms and a limited supply of ammunition, appeared to have slim chance of victory.

What the police claimed was the last big store of Socialists' ammunition was discovered today in the Central cemetery. The director of the cemetery was arrested.

Court martialing of Socialists captured by the government continued. Robert Kamape, 21, a Schutzbund member, was sentenced to death today. His execution will be carried out before nightfall. Kamape is the third rebel to be given the death sentence. Two were executed yesterday.

The police today prohibited the entrance into Austria of all German and Czechoslovakian newspapers.

The Heimwehr occupied the premises of the Goldschmidt publishing concern and confiscated all foreign newspapers.

The purpose of this, it was explained was to prevent an "atrocity propaganda campaign."

It was reported today that the British and French ministers had called upon Chancellor Dollfuss and told him their governments were most interested in the Austrian situation and hoped that "no more human lives would be sacrificed."

While government troops were continuing their "clean-up" campaign in Vienna, scattered disorders were reported elsewhere in the country.

A strong Schutzbund unit staged a surprise attack on the post office and the barracks of the gendarmes at Ebensee, near Linz. They ousted the gendarmes and captured their arms and ammunition. Government reinforcements have been ordered to Ebensee.

This was the most serious situation reported from provincial districts and, generally, government forces were believed to be in control.

Whether such a wedding will take place in case of acquittal could not be verified. But it was learned from an authoritative source that Dr. Dean had planned to become the wife of a certain Captain Maulk, of Dover, Del. at the time of her arrest.

Captain Is Spared Maulk, commander of a Delaware river steamboat, was present for the first two days of the trial, but was called away because of the illness of relatives. This spared him the ordeal of listening to fervent letters written by the defendant to the late Dr. Kennedy.

Dr. Dean or the first time in the trial, broke down. Her blue eyes filled with tears, her face was drawn, but she withstood the ordeal without uttering a word.

The letters were introduced by the state in an attempt to show that Dr. Dean was the "pursuer" of Dr. Kennedy rather than the pursued, as the defense contends.

FORMER POSTMASTER GENERAL DENIES ALL OF FARLEY'S CHARGES

(Continued From Page One)

air mail contracts" said Brown, "and I propose to tell it."

"I have been trying to tell it for weeks but they (the senate committee) haven't given me a chance. Asked about the meetings referred to in Farley's letter Brown said "I know all about every meeting ever held in my office."

"I know the meetings Farley is making reference to. They were held for proper legal purposes—and they were not connected with air mail contracts."

Proper and Legal Farley in his letter to chairman Black specifically charged that the extension by second assistant postmaster general W. Irving Glover of five contracts for six months was illegal. In answer to questions about this Brown said:

"There was nothing that Mr. Glover did that was proper and legal; nothing that I did that wasn't proper and legal and that goes for everyone under me."

"I'm going right to work on a full statement now in answer to three charges. I think it will be a complete answer. Any point in it that doesn't seem clear to everyone I will be glad to amplify."

Farley Sends Documents Washington, Feb. 15.—Documentary "proof" that all of the government's air mail contracts, with one possible exception, were based on "conspiracy or collusion" was sent to the Senate today by Postmaster General Farley as his reason for annulling all domestic air mail contracts, effective Monday.

Farley claimed the aviation companies had been overpaid \$46,800, 000 during the period from July 1, 1930, to December 31, 1933. He identified the National Parks Airways as "the possible exception" and charged all the other contracts were awarded "on agreement and not on competitive bidding," as the law prescribes.

Army Pushes Plans The army air corps pushed its plans to have its pilots and equipment ready to fly the air mail by Sunday midnight, while the White House and Farley discredited reports the administration planned to annul some of the old contracts. It was stated the government's future policy had not been determined.

Senator O'Mahoney (D) of Wyoming, until a few months ago first assistant postmaster general, proposed the holders of the cancelled contracts be allowed to bid for new contracts, meaning that the guilty contractor, meaning he, should not visit it on the aviation industry."

Other developments in the Senate's investigation of air mail irregularities were:

WOMAN PHYSICIAN PLANS TO WED IF FREED BY JURORS

(Continued From Page One) Dean's trial for the "poison highball" slaying of Dr. J. Preston Kennedy.

Whether such a wedding will take place in case of acquittal could not be verified. But it was learned from an authoritative source that Dr. Dean had planned to become the wife of a certain Captain Maulk, of Dover, Del. at the time of her arrest.

Captain Is Spared Maulk, commander of a Delaware river steamboat, was present for the first two days of the trial, but was called away because of the illness of relatives. This spared him the ordeal of listening to fervent letters written by the defendant to the late Dr. Kennedy.

Dr. Dean or the first time in the trial, broke down. Her blue eyes filled with tears, her face was drawn, but she withstood the ordeal without uttering a word.

The letters were introduced by the state in an attempt to show that Dr. Dean was the "pursuer" of Dr. Kennedy rather than the pursued, as the defense contends.

FROZEN CREEK AIDERS ROBBERS

(Continued From Page One) ticed the two men and fired several shots after them. They fled in the darkness.

Another Robbery Case Another robbery in the East Side section occurred at the Hryomak Gasoline station, \$21.00 having been taken from a cash register. The robbers evidently were in a hurry as they lost several keys on the floor.

During the early hours of morning police took into custody on charges of suspicion two young men. They had wet feet. It was believed by police they might have become wet while using the ladder on the ice in the rear of the wholesale house.

The young men denied they were implicated in the theft. They admitted they had been stealing coal. They said they were not together, although they were on a west side coal train for the same purpose.

PONZI'S WIFE IS LOYAL TO HIM

(Continued From Page One) chicken dinner, motion picture show and a night at a Boston hotel—had to be postponed until today.

Mrs. Ponzi was in telephone communication with the "ex-wizard of finance."

"Without her I could not have stood the burden," said Ponzi. "We are tremendously in love, more than ever. We have been married 16 years. I have suffered, but Rose has been loyal. During all my 11 years behind the bars she has visited me regularly. Without those visits I could not have gone on."

It has been indicated that if Ponzi is deported his wife will go with him. He is charged with moral turpitude on three counts.

CHARGE BRIBE WAS OFFERED

When he testified Soles had told him and Eckles that a successful attempt had been made to blackmail his wife by a man apparently named Watt Martin.

Haggerty pleaded surprise at Connelly's testimony at two different times. The first was when Connelly testified Soles had walked into the bedroom to tell of the alleged blackmail attempt with a letter in his hand. Haggerty barked that in previous statements to him, Connelly had insisted it was a telegram.

The second time Haggerty objected was when Connelly quoted Laroux Soles as telling her husband, in the hospital emergency room, that she had planned for a long time to commit suicide.

On the second occasion, Haggerty demanded to know why he wasn't told more about the case. Connelly replied simply: "I wasn't asked."

Structural Iron Workers Wanted

The Federal-State Employment office, confronted ever since the depression began with everlasting problem of finding jobs, today found itself face to face with a new problem—finding workmen to fill jobs.

Calls went out immediately for 10 or more structural iron workers to take jobs at once on special PWA projects about the country. More positions are expected to be found. The office urges that the structural workers contact the office, Bell 617, as soon as possible.

Superintendent R. L. Meermans said it was the first time such a situation arose in years.

Unskilled workers, the office announced, need not apply. The work must be done by experienced structural iron workers.

A number of workers who had registered have been placed in other jobs.

Pile Sufferers

Can You Answer These Questions? Do you know why external remedies do not give quick and permanent relief?

Why cutting does not remove the cause? Do you know the cause of Piles is internal?

That there is congestion of blood in the lower bowel—the veins flabby, the parts almost dead?

Do you know that there is a harmless internal remedy for itching, bleeding or protruding piles discovered by Dr. Leonard and known as HEM-ROID that is guaranteed?

HEM-ROID banishes piles by removing the cause. It stimulates the circulation in the lower bowel—drives out the thick impure blood, heals and restores the affected parts.

Dr. Leonard's HEM-ROID has an almost unbelievable record of success. So why waste time on external remedies or worry about an operation when Eckerd's Cut Rate and New Castle Drug Co. invites every Pile sufferer to try HEM-ROID with guarantee of money-back if it does not end their Piles, no matter how stubborn the case?

REAL ADVICE FROM AN UNEXPECTED SOURCE

ONE would not expect good advice to issue from the lips of a man who has such a criminal record as Gordon Alcorn, who starts a life term in Leavenworth prison for his share in the kidnapping of Charles Boettcher.

The associate of Verne Sankey, who committed suicide when he faced a similar term, says to the youth of the land: "Look into the future first. Try to see the terrible consequences and then avoid what I am facing now."

Wise words come from unexpected sources sometimes. Alcorn now knows whereof he speaks. And if every potential criminal would look a short distance ahead and consider the eventual ending of a criminal career, crime soon would be as rare as the proverbial hen's teeth. Law-breaking is a game which has no winners among the players.

THE OLD BALL AND CHAIN

They have dug up the old ball and chain in the town of Bloomsburg, Pennsylvania. The contrivance was originally used to discourage panhandling. Now it has been brought out of the basement of the town jail to await an arrest for drunkenness.

The first victim will be put to work on the streets and "will be chained to his job." Obviously intoxication is going to be a painful luxury in Bloomsburg.

GOVERNMENT OWNED RAILS IN CANADA NO SUCCESS

The government owned railways in Canada, the Canadian National, shows a deficit of \$50,000,000 for 1933. In three years the gross operating revenue declined \$102,000,000. This occurred even until a reduction in operating expense amounting to \$88,000,000. The operating surplus last year was about six million dollars but there was more than \$57,000,000 to be paid as interest on a debt of \$1,250,000,000 held by private security owners. This debt is in addition to a debt of \$1,500,000,000 owing to the government.

Finding that political management was responsible for a great loss of change was made in the directors of the railroad. Under this non-political control some improvement was made. But the National Railways is still going into the "red" every month.—Portland Press Herald.

DEBUNKING ARTISTIC TEMPERAMENT

At last an opera singer has debunked the artistic temperament. Listen to Goeta Ljungberg:

"This screaming and nerves and temperament! People have to do things with temperament when they don't do it with the voice to show they are artists. But temperament makes it much harder to sing. It is better to be calm and quiet about things."

Boy, page Geraldine Farrar, Maria Jeritza, Mary Garden, Beniamino Gigli and call up the shades of the mighty who have passed. Let Mme. Ljungberg tell Miss Garden or Mme. Jeritza that temperament is used to what is lacking in the voice—then watch the fireworks. "Keep cool and be calm" is sound advice and an overabundance of temperament makes things hard for everybody. But mental placidity has been recognized as the hall mark of genius.

SENSIBLE PROPOSAL

Nearly everybody except congressmen are likely to agree with the proposal of Representative John F. Dockweiler of California, that politics should be eliminated in the appointment of all postmasters.

The Californian would place first, second and third class postmasters under civil service.

He has announced that his proposal will be embraced in a bill and introduced in the house.

How far such a measure will get is a question which requires no prophetic vision to answer.

Congress eventually may be forced by public opinion to adopt such a plan. That time, though, is a long way off.

Postmasterships represent at the present time a form of patronage that every congressman regards as a distinct asset in furthering his political ambitions. Party officials apparently look upon them as of distinct advantage to the success of the party.

SIMPLIFYING JUSTICE

Any reform in criminal court practice that will tend to make justice more sure and swift would be a welcome development in this country.

An experiment along this line is now being tried in Illinois, with news of its first application coming out of Chicago, a city whose right to explore such ground is not exceeded by that of any other.

A new state law relating to the delivery of instructions to a jury by a trial judge greatly simplifies this procedure. The judge is permitted to present his instructions in language simple and easily understood by the least informed of jurors. Legal verbiage which would serve only to complicate the issues involved and cloud the minds of the jury is eliminated. In addition, the instructions instead of being delivered orally are given to the jury in printed form. They thus can be studied leisurely by the men who are to decide the case, and the chances that a just verdict will be returned are greatly increased.

The experiment should prove of much interest to other states, where court practice still is cluttered with ancient forms and procedure that tend to make the task of administering justice more complicated and difficult than it should be. If successful, its adoption by other states may be looked for.

MAN WITH A COLD
FINE BUSINESS, this is. Go to sleep feeling well as you ever did in your life. Wake up in the morning all hoarse and dizzy and croaking like a frog. With a cold!
Imagine that. You with a cold. After all these years of boasting about you never, never, never catch a cold. That you can be right in the same room with people who have colds, that you can sit in a draft, get your feet wet, expose yourself deliberately to germs and still never catch a cold. . . . And now you have one. Or it has you! Fine business.

Doctors all say you must stay in bed for a day or two when you have a cold. Dangerous for you, dangerous for other people, if you go to work. . . . No, no staying in bed! Babeling yourself, being a sissy. But Bill isn't a sissy and when he has a cold he always stays home. That's right, but Bill's different. He's susceptible to the things. . . . No, no staying away from the office. Much better to go to work and drink a lot of water and orange juice and take aspirins and alkalize yourself thoroughly and beat the cold that way. Just sit down at your desk and go to work and take the thing in your stride. Oh, yes! Easy enough to say, hard to do. Funny what a cold does to you. Takes the pep out of you, turns you inward, slows up your action, makes easy things hard, makes hard things almost impossible, changes your nature. All because of a couple of dozen little germs that saw their chance and seized it. Caught you when you weren't looking and turned all your boasts to ashes. Wonder if you always have germs in your system. A nice little collection of diphtheria, smallpox, typhoid, scarlet fever, mumps, chicken pox and whooping cough germs, just waiting for their chance to make a bum out of you.

Wonder if that's true? Charming idea! Just a resting room for germs, so that's what you are. . . . And a lot of doctors know about it, too, with all their serums and scalpels and tests and wise looks. Can't tell a fellow who never gets a cold. . . . Can't tell him why he gets one. . . . Can't tell him how to cure it when he has one. . . . Aw, who cares? This ought to fill up the column.

You have had a serious loss. It has been a shock and you feel shaken to the limit.

But you have other members of your family still with you.

Don't you suppose it has shocked them also?

You have not considered anyone else—it is enough to you that the world will never be the same.

You keep saying that till you really believe it.

Meanwhile the rest of your family are doing all they can to console you.

They do not mention their grief and the additional unpleasantness you put upon them when you neglect your share of the work.

They are doing double duty because you are so inconsiderate of them.

Everyone is keeping quiet so as not to disturb you.

Everyone is afraid to even mention the loss because to do so sends you into hysterics of some kind or another.

Suppose you brace up, Mr. Man or Woman whoever you may be.

You are supremely selfish and egotistical.

You are not the only one on earth that has had to suffer.

Snap out of it and begin to act like a normal person; you are no better than anyone else, that you should be spared.

LIMITATION ON STOCK LOSSES

Certain new provisions are contained in the Revenue Act of 1932 under the above-mentioned heading limiting the deduction for losses sustained on the sale or exchange of stocks and bonds which are not capital assets—that is, which have not been held for a period of more than two years. In accordance with the limitation, such losses may be deducted only against gains from similar transactions for the year. It is also to be noted that such loss may not be offset against capital gains.

The above-mentioned limitation is in general applicable to both corporations and individuals as well as other taxpayers. By the terms of the statute, however, the limitation does not apply to dealers in securities as to stocks and bonds acquired for resale to customers or to banks or trust companies incorporated under the laws of the United States or of any State or Territory.

In defining "stocks and bonds" for the purpose of such limitation the statute specifically excludes therefrom bonds issued by a government or political subdivision thereof. Such exclusion not only includes bonds issued by the Government of the United States or a State or political subdivision thereof but also includes bonds issued by a foreign country or foreign municipality. It therefore follows that the deduction for losses sustained on the sale or exchange of such bonds is not subject to such limitation.

The experiment should prove of much interest to other states, where court practice still is cluttered with ancient forms and procedure that tend to make the task of administering justice more complicated and difficult than it should be. If successful, its adoption by other states may be looked for.

THE FAMILY BATTLE
Hints and Dints:
Another family battle of the ages, this has probably happened in several homes. The result—that the female of the family would like to assassinate some of her kith and kin and who would blame her?

In the evening at the supper table Ma has for dessert cup custard, and when supper is over finds that she is the only one who ate any of it.

Ma—"Well, I suppose that at least you folks would eat the custard after all you craved for it."

Pa and Sis—"We had some for lunch in town."

Pa—"How was I to know that you'd make it so soon?"

Sis—"Don't glare at me, I'm no mind-reader."

Pa—"Now, Ma, you know..."

President Acts on Own Accord
Directs Purging of Departments
No Highest Reward for Sen. Wagner

By LESLIE EICHEL
Central Press Staff Writer

NEW YORK, Feb. 15.—It probably is no secret that it was President Roosevelt who decided to annul the airmail contracts, and to purge government departments of graft. Some others in the government were not so keen for such drastic moves.

There were two reasons to "fear." One, powerful interests control airlines. Two, powerful politicians might become involved in departmental exposures.

The measures of the man Roosevelt was taken when he decided to move in the common interest, regardless of personal outcome.

INSURANCE

The most important measure labor probably ever has seen has obtained Roosevelt support. It is the Wagner-Lewis unemployment insurance bill. It would protect 40,000,000 wage earners.

Senator Robert F. Wagner of New York, who has become labor's foremost sponsor in congress, fights for labor's rights purely because of deep personal beliefs. He cannot gain greater political power—he cannot run for a higher office, president. He was born in Germany—and came to the United States as a child.

LABOR'S RIGHTS

Times are not so bright as pictured for labor, says the 1933 survey of the American Civil Liberties union.

The survey asserts: "Too many employers consider Roosevelt's New Deal with Coolidge's New Capitalism."

"The methods of that era are used flagrantly to smash labor's efforts to organize, despite the NRA. At no time has there been such widespread violation of workers' rights by injunctions, troops, private police, deputy sheriffs, labor spies and vigilantes."

"More than 15 strikers have been killed, 200 injured and hundreds arrested since July 1. More than 40 injunctions of sweeping character have been issued against miners, agricultural workers, bakery workers, shoe and leather workers, food workers, hotel workers."

"Troops have been called out in half a dozen strike districts. Criminal syndicalist charges are again being used against active strike leaders."

"The National Labor Board and its regional boards have lacked the will or the power to overcome the defiance of employers. Labor's rights to meet, organize and strike have been widely violated by employers who fear neither General Johnson nor Attorney General Cummings. Only where labor has been well organized and has struck with determination have rights been respected."

ST. LAWRENCE TREATY

Honest foes of the St. Lawrence waterway treaty believe they have lost their battle—because of too much support.

The honest foes believe the St. Lawrence waterway would cost a sum incompatible with its value to the American people.

But power interests, fighting it to combat inexpensive power, have lobbied so hard against the pact that its passage seems assured. No New Dealers desires to be seen on the side of power interests.

ECONOMY

Utility companies now are getting busy within their own families to meet the oncoming public-owned utilities.

In order to have rates low enough to compete these items will be considerably less costly in the future. Commissions paid for security flotations, management fees and salaries.

Well, if Janet's pleased to make it, for dessert I'll gladly take it. Be it chocolate cake or custard Or a wedge of apple pie. And I'll vow when it is eaten, With such love as hers to sweeten Every dish that she set before me, As a gourmand I would die.

Ready For Y. W. C. A. Show At Cathedral

This is the night and the Cathedral is the place. The occasion is the Y. W. C. A. musical comedy "Up In The Air" and the time is eight fifteen o'clock. For several weeks now the cream of New Castle histrionic talent has been rehearsing under the direction of William Kay Martin and to you and you and you who have tickets, the promise is made that you will get an evening's entertainment.

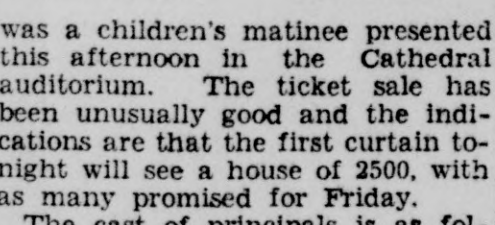

"Up In The Air" is a breezy sort of thing with the locale set in the great open spaces out around Jackson Hole, Wyoming, where men are men and all that sort of thing. There is a thin thread of a plot decorated from one end to the other with good looking girls, melodious songs, a few dances and plenty of wit.

The play will have probably the largest cast ever to be assembled in any local production in New Castle. The list of principals is long and the choruses are even longer. And listed among both principals and choruses are the very best that New Castle offers in the way of talent.

The play will run two nights and as a sort of dress rehearsal there

BRADDOCK, Feb. 15.—Edward Kress, of this city, has made information against Patrolmen Philip Cognito and Thomas Frain before Justice of the Peace, George H. Eouse, charging them with having beaten and kicked him.

Kress claims he was standing in Corey avenue, with his uncle, Joseph Naphem, of New Castle, when they were arrested, handcuffed and taken to the police station. The police refused to tell them of the charges against them, and when he protested, Kress claims one of the policemen hit him with a black-jack, knocked him unconscious and then kicked him in the face, knocking out four teeth.

Former Rulers Of Elks Hold Dinner

Annual Reunion Occurs At
Temple Last Evening;
Lead Regular Lodge

**CAMPBELL IS 'DEAN'
OF FORMER LEADERS**

Prothonotary Ralph M. Campbell, who served the New Castle lodge of Elks, No. 69, as its exalted ruler in 1893 and 1894, was re-elected president of the lodge last night at the annual dinner last night at the Elks home.

The past exalted rulers renamedd Abe Levine as their secretary.

Group Meets Annually. Once every year the past rulers gather for dinner and then preside over a regular session of the lodge, and tradition was well lived up to last night. With the present exalted ruler, Edward J. Ryan, there were 19 of them when they sat down to dinner. President Campbell presided over the short election that followed dinner.

Known as the "dean of rulers", Prothonotary Campbell has won for himself the deep admiration of the entire lodge, and since 1893, when he was named exalted ruler, his interest in the lodge has never waned. Always he has been prominent in its local activities.

Besides serving as exalted ruler Mr. Campbell also filled the offices of treasurer and trustee, and he attended a grand lodge session of the order at Atlantic City in 1894.

Fill Lodge Chairs Again.

Retiring from the dining room to the lodgeroom upstairs, the 18 former rulers stepped into the lodge chairs to conduct the evening's meeting. Mr. Campbell, who took over the exalted ruler's chair, designated the following to serve for the night: Esteemed leading knight, Louis F. Genkinger; esteemed loyal knight, C. W. Herman Hess; esteemed lecturing knight, Abe Levine; secretary, Jacob Cosel; treasurer, Harry Alexander; chaplain, John F. Woods; esquire, Walter C. DeArment; inner guard, Benjamin S. Agnew, and tiler, Edward F. Ryan.

Routine lodge business was transacted with the lodge's old leaders once more at the helm and with the present exalted ruler, Edward J. Ryan, and his officers merely on-lookers.

A tasty lunch was served the members at the close by Willis F. Falls.

Says Birds Need Feed Until Spring

Fire Chief Stockman Says Natural Food Sources Have
Been Depleted

Fire Chief H. Clare Stockman, who is one of the most enthusiastic sportsmen in New Castle, states that from now until spring is the critical period in the lives of our game and song birds.

In February and March, the supply of grain left in the field, and the wild seeds, has practically been exhausted. Besides, snows have covered what little remains and unless the friends of the feathered denizens of the wood and field come to their rescue, they will starve to death.

The farmers, Boy Scouts and sportsmen can aid in the movement to protect our game and song birds by scattering grain in sheltered places, where the birds can get at it. Chief Stockman states that in some parts of the county there are large flocks of English Starlings, which are eating up the food of the native songsters. These birds are not protected and have little practical value. They would make excellent shooting for sportsmen, he asserts.

Mrs. Tinsman, Americanization instructor in the Lincoln and Garfield building, wishes more aliens would follow the example of 59-year-old Annie and become interested enough to enroll in the classes provided for them.

This woman did not know a single word of English until she came under the tutelage of Mrs. Tinsman a few short weeks ago. She is now in her second reader and making splendid progress.

Mr. Harris and Mr. Griffiths, who teach the male beginners at Lincoln and Garfield, state that their work brings a peculiar joy as they see the grow ups wrestle with the intricacies of English and finally master it.

Doug And Mary May Patch Up Difficulties

Divorce Action By Lord
Ashley May Complicate
Reconciliation Matters

SCREEN STARS
STILL IN LOVE

(Copyright, 1934, By International News Service)
HOLLYWOOD, Cal., Feb. 15.—Although the divorce action of Lord Ashley may complicate matters, there is still reason to believe that Mary Pickford and Douglas Fairbanks, Sr., may smooth out their differences and effect a reconciliation, friends of the famous film couple revealed today.
Miss Pickford has pending in Los Angeles a suit for divorce against Fairbanks on the nominal grounds of cruelty. Lord Ashley, in petitioning for divorce in London against Lady Ashley, named Fairbanks as co-respondent.
Only a day or so before Lord Ashley filed his action, Fairbanks from London telephoned Mary Pickford, in the east on a stage tour, asking her to delay her divorce action, it was learned today.
"It is difficult to say what bearing Lord Ashley's action will have on the tentative attempts of Mr. Fairbanks and Miss Pickford to reach some sort of an understanding," said a close friend of the pair today.
"This may delay matters for some

time, but there is considerable reason to believe that in time some sort of a reconciliation may be worked out."
Fairbanks and Miss Pickford have been in communication with each other ever since their separation last year it was revealed. Trans-Atlantic telephone and intermediaries were used.
The report that the two may yet come together again was revived a few days ago with the return from Europe of Joseph Schenck, movie producer, who said he had brought back from England a personal message for Miss Pickford as well as a "kiss from Doug."
"Even after their separation, the two remained very much 'in love,'" said one of their friends here.
"The events that led up to the filing of the divorce suit were complex. But those of us close to the pair have always felt that the case was not hopeless—that even yet the differences can be bridged."
Other evidence pointing towards a reconsideration of their separation plans was seen when Pickford, in a mansion atop the Hollywood hills where Doug and Mary entertained the royalty of the world, had been withdrawn from the market after being offered for sale when Miss Pickford admitted that the two were separated.

Greek Premier To Allow Insult Indefinite Stay

Because Of Ill Health Former
Utilities Magnate Can
Stay In Athens

(International News Service)
ATHENS, Feb. 15.—Premier Tsaldaris has decided to permit Samuel Insull, indicted Chicago utilities magnate, to remain in Greece indefinitely because of his ill health, it was reliably reported today.
Insull's residence permit expired Jan. 31 and the government had planned to deport him after the United States government twice unsuccessfully attempted his extradition.
In order to justify Tsaldaris' decision the report of physicians who examined Insull will be submitted to the American legation.

Melvin A. Traylor Dies In Chicago

Five Weeks Battle Against
Pneumonia Is Lost By
Financier

(International News Service)
CHICAGO, Feb. 15.—Melvin A. Traylor, whose meteoric career took him from a Kentucky log cabin to presidency of the First National Bank of Chicago, was dead today after a stubborn five weeks battle against pneumonia.
The internationally-known banker died at his residence here following a sudden relapse which five physicians in attendance were unable to check. Traylor was 55 years old.
Only fifteen minutes before he succumbed the doctors said they were confident the banker was holding his own. He had suffered five set-backs during the day.
Fighting against the Friedlander bacillus type of pneumonia, which is usually fatal, Traylor's vitality during the long illness had amazed his physicians.
Mrs. Dorothy Traylor together with her son, Melvin Jr., and daughter, Nancy, were at the bedside when the banker died. Several friends and associates also were present.
"He was just tired out," Dr. William R. Cubbins explained. "It was just one collapse after another, no sooner had we blocked one complication than another arose."

**Truckers Hand
An Ultimatum**

**CWA Administrator Is Given
Demand Of Truckers
Wednesday Night**

Unless the rate for CWA trucks in Lawrence County is raised to the maximum rate shown in the Federal rate book, the truckers will quit the job Saturday night. This was the ultimatum handed CWA Administrator Round Wednesday night when a group of 38 truckers met him. Some forty one truckers were not present and it is not known whether they agree to the ultimatum.
Mr. Round's answer to the truckers was substantially the same as it has been in the past, that the truckers were being paid a fair and equitable rate and that he would not raise the rates to the maximum. "If the men are not satisfied with this arrangement they must use their own judgment as to what they will do," said Mr. Round.
A compromise rate structure was offered a week ago in which the "T" licensed trucks were offered an increase to \$130 per hour as against \$125 they have been getting and an increase to \$135 per hour for "V" licensed trucks as against \$170 they have been getting. This offer was refused.
It was thought at the conference a few days ago that the matter would be put up to an impartial board to adjudicate. This seems to have been dropped and the truckers are now demanding the maximum rate.

Large Families Biggest State Relief Burden U. S. Census Shows

By ARTHUR C. WIMER
Special Washington Correspondent
New Castle News

WASHINGTON, D. C., Feb. 15.—The state of Pennsylvania stands out as having a rather high proportion of families on relief, according to a tabulation of the unemployment relief census taken last October by the Federal Emergency Relief administration and announced today by Cornington Gill, Director of Research and Statistics.

Mr. Gill explained that the survey revealed one of out each seven families in the state was on the relief rolls. Except for this fact it was found that the relief census figures showed no other single outstanding problem in the state, but rather that relief needs were widely spread over the age groups and the family groups in about the same proportion as they appeared in the population census.

Large families, having a preponderance of children of school age and younger, constituted the chief relief burden in the Keystone state. Persons in families having five or more members made up 63 per cent of the total number of persons receiving relief from public funds when the relief census was taken. The hardships sustained by children is evidenced by the fact that approximately 568,500 children in the state, more than 34 per cent of them being of pre-school age, were on relief rolls. These children made up 42 per cent of all persons in the relief families. Added significance is given to this percentage by comparison with the figures of the population census, which show that children under 16 represented only 32 per cent of the entire population in 1930.

Howard B. Myers, Assistant Di-

rector of Research and Statistics, called attention to the fact that males have not fared as well as females in the distress that accompanies unemployment. Evidence of this was given, Mr. Myers said, by the fact that males on relief roles exceeded females by almost seven per cent, according to the relief census, while they outnumbered females by less than two per cent in the population census. There was, however, one age group, that from 25 to 34 years, in which women outnumbered men by three per cent on relief rolls.

The relief survey revealed 1,361,171 Pennsylvania persons as receiving aid from public funds. Of these, 703,247 were males and 657,924 were females. Those receiving such relief were classified by age groups as follows:

Under one year, 24,504, or 1.8 per cent of the total; one to five years, 172,088, or 12.8 per cent of the total; six to 13 years, 306,383, or 22.8 per cent of the total; 14 to 15 years, 85,567, or 6.3 per cent of the total; 16 to 17 years, 60,330, or 4.5 per cent of the total; 18 to 24 years, 151,906, or 11.3 per cent of the total; 25 to 34 years, 173,434, or 12.9 per cent of the total; 35 to 44 years, 168,369, or 12.4 per cent of the total; 45 to 54 years, 118,532, or 8.8 per cent of the total; 55 to 64 years, 63,932, or 4.8 per cent of the total, and 65 years or over, 40,908, or 3 per cent of the total.

it was learned in city hall today. The lots are situated in all sections of the city. Most of them would not bring very much money at a sale, according to reports. People who owned the land and failed to pay the taxes have a right to redeem them.

James P. Steiner, police sergeant and Tommy Jones, patrolman, so the story goes, were playing golf. Tommy wanted to drive and yelled: "Fore!" Jimmy gazed quickly at Tommy and remarked: "Whadya mean four; you've had five shots now." That was when Steiner was enjoying his infancy in goldfom, according to the sergeant.

Andrew P. Sands, assessor for the city of New Castle is doing considerable checking in the assessors' bureau these days. He is going over all the assessments made for 1934, '35, '36, he declared today. Mr. Sands wants to discover if he made any errors, hence his check.

It looks very much as though the employees of the Civil Works administration who have been enhancing the appearance of the second and third floor offices of city hall will do some work in the department of police when their present duties are finished. The court-room and detectives bureau will be "done over."

There are several street intersections where "stop" signs could be erected. For instance, one in Sheridan avenue at the intersection of North Mercer street and another in Hillcrest avenue at the intersection of Highland avenue. Few accidents have occurred at Sheridan avenue and North Mercer street, because there is a slow sign in North Mercer street, a through thoroughfare.

No one can be named mayor of the city of New Castle unless he is 25 years of age and no one can be mayor unless he has resided here one year and in the state for four years and must reside in the city during his term of office. A mayor has the authority at all times to call upon any official of the city or heads of departments for any information as to the affairs under their control and management as he may require.

Ray Showalter, the "hard luck rider of the motorcycle brigade" (there is only one police motorcycle-clerk at present) has returned to duty. Showalter suffered a siege in a hospital when injured sometime ago at North Mill and North street. A few days ago the motorcycle "kicked" when he attempted to start it and he sustained an injured leg.

Enjoy Bible Game.

Dr. S. Parkes Cadman is among the noted clergymen who praise The Pittsburgh Press' \$1,500 Bible Contest. Dr. Cadman says, "I am heartily in sympathy with this effort to spread the strength and comfort of God's revelations in the Book of Books, at a moment when His Blessings are so sorely needed. It is an unusual attempt to popularize the Scriptures in an age when any attempt to teach the Book of Books is worth while. The Bible Game should have the cordial endorsement of every lover of the Bible." This is Rabbi Stephen S. Wise's opinion of the Bible Game. "You are to be congratulated," says Father Coughlin, Michigan's crusading priest, "upon stimulating interest in Bible reading. The Catholic church has always extended its benediction to those of its children who spend some time each day in reading the Bible. This was done because we recognize that the Bible is the inspired work of God." Adv it

Pennsylvania Gets Smaller Federal Aid

By ARTHUR C. WIMER
Special Washington Correspondent
New Castle News

WASHINGTON, D. C., Feb. 15.—The Federal Government is carrying a larger share of the relief burden in 35 states than in Pennsylvania, according to figures collected by Senator Hayden, Democrat, of Arizona.

Senator Hayden reported that of public relief funds spent in the Keystone state in the first 11 months of 1933, the federal government contributed 55.9 per cent. The percentage contributions by Uncle Sam were smaller in only 15 states and were greater in the remaining 22. Local funds comprised 6.1 per cent of the relief disbursements in the Keystone state, and state money made up the residue of 38 per cent. The federal government carried 64.9 per cent of the relief burden in Ohio and 92.2 per cent in West Virginia, the percentage of government contributions being larger in only six states than in West Virginia.

On Court House Hill

Sheriff Edward D. Pritchard went to take John Prender from that institution to the Fairview State hospital for the insane. Prender is said to have shown unmistakable signs of mental trouble recently. He was sent up from Lawrence county for burglary and is serving a sentence of from four to eight years.

Letters of administration have been issued by Register and Recorder, William R. Hanna, to Maybelle D. Ringer in the estate of the late Harry M. Ringer, of Ellwood City. Bond in the sum of \$8,000 was given. Letters have also been issued to The Union Trust Company in the estate of James F. Black, late of New Castle. Bond in the sum of \$5,600 was approved.

Nomination papers for David Reed for the United States senate were being circulated at the court house this morning by Attorney Leroy Donaldson. Practically all of the court house officials and many of the attorneys who happened to be in the Court House signed the paper.

County Commission P. O. Elder, Elmer Connors and F. R. Woods went to Mahoningtown yesterday to see the new Union Pacific steamline train pass through on its way to Washington. The engineer failed to see them and so did not stop the train. However, they were able to get an eyeful and felt well repaid for their trouble.

Sheriff Pritchard has posted new rules relating to visitors to the county jail. Persons who have friends in jail can only visit them on Tuesday from 2 to 4 p. m. unless special permission is secured from the sheriff. Visits are confined to ten minutes. Merchandise intended for the prisoners can be given to the sheriff but it will only be passed in to the prisoners at meal time when they come to the hole through which their rations are passed from the kitchen.

Some of the larger items of expense of Lawrence county during the past year, as shown by the report of County Controller, R. C. McCaslin were: Willow Grove bridge, \$12,087.19; West Pittsburgh road \$22,646.30; and West Washington St. bridge, \$15,940.76. The West Pittsburgh road has proven somewhat of a nightmare to the county commissioners. When the improvement was projected, it was thought that it could be put through with very little damage to pay. Since then numerous damage claims have been presented, and there are some which are still pending.

There is no grass growing under the feet, or fingers rather, of the employees in the office of Prothonotary R. M. Campbell. Their typewriters keep up a constant rhythm. The only time they are idle is when they are slowed down to cool off. The large number of tax liens which have been filed of late has greatly increased the work. However, Mr. Campbell is getting along with the same amount of help without any increases in wages.

When the force of Ellwood young people who have been taking off

property descriptions in the register and recorder's office complete their work, Ellwood City will be in shape to install the proposed registry system of deeds. This will be a similar system to that employed in the City of New Castle. After deeds are recorded by the register and recorder, they are now sent to the city building where another record is made. Ellwood City will have the same system, which will necessitate the register and recorder sending all deeds for property in Ellwood to the Ellwood registry department after they are received here. When they are recorded in Ellwood they will then be sent back to the register and recorder's office, the same as the deeds for property in New Castle.

Sheriff Pritchard and deputies have installed a new system of keeping records of prisoners. It shows at a glance the crime for which the prisoner was arrested and all the necessary data about him. A new system of advertising sheriff sales has also been adopted, one of the main features being that it shows the amount of the execution on which the property is being sold.

Mr. and Mrs. W. P. Lippman of

Arlene Booher of the old Pittsburgh road missed three weeks of school on account of having the mumps but is nicely recovered now.

Mr. and Mrs. Marshall, and Jackie and Bobby of Gardner were all guests at the wedding of Miss McCready and Mr. Green, at Ellwood City last Saturday.

Mrs. Charles Wirtz of the Harbor road has been bedfast for 17 weeks, but is much improved at this time. Mr. and Mrs. Nichols of Sharon were guests at the Wirtz home on Sunday.

Whose Fault?

When Little Girls Show Temper

A quarrelsome child is a sick child, mothers! A bad bowel condition means bad behavior. And it doesn't help matters to give bilious boys and girls some powerful cathartic that upsets them for days. When you see a coated tongue, dull or yellowed eyes, or other signs of sluggishness, there's always a way to cleanse and sweeten that little system without violence; next day you have a happy, contented child. This common-sense treatment is explained on the right:

Good health and good behavior go hand in hand. With inner health, come smiling faces and sunny dispositions. And it's really so simple a matter to keep children's bowels regular. The only "medicine" most youngsters ever need to promote thorough bowel action is pure California Syrup of Figs. The senna in this fine, fruitily laxative never weakens them, or takes away their appetite. But get real California Syrup of Figs; you can get it anywhere; it isn't expensive.

AIRWAY OFFICIALS BATTLE SENATE JAIL SENTENCE

MacCracken Seeks Stay Of Sentence

Col. Brittin Also Contesting Senate Sentence Of 10 Days In Jail

TWO OFFICIALS ARE ACQUITTED

By PAUL C. YATES
International News Service Staff Correspondent
WASHINGTON, Feb. 15.—Facing a 10 day jail sentence following their conviction by the senate on contempt charges, former Assistant Secretary of Commerce William P. MacCracken, Jr., and Col. L. H. Brittin, Northwest Airways official, today began a frantic fight to have the penalty set aside by the courts.

Two other defendants in the dramatic senate trials developing from the air mail scandals, rejoiced in their acquittal. They were Harris M. Hanshue, president of Western Air Express, and Gilbert L. Givvin, Washington representative of Hanshue's company.

Allow Court Appeals.

Imposition of the jail sentence was postponed four days to allow appeal to the courts. The prisoners in the meantime were lodged at a hotel in custody of Senate Sergeant-at-Arms Chesley W. Jurney.

Frank J. Hogan, MacCracken's attorney, planned to start two separate court moves—one an application for a habeas corpus writ permitting bond while the case is on appeal, and the other, the filing of an appeal from a writ denied by Federal District Judge O'Donoghue.

A writ for Brittin's release will be filed by his counsel, former Assistant Attorney General Seth W. Richardson.

Take Secret Vote.

The senate disposed of the four contempt cases in closed executive session. Vice President Garner declared this program was in line with

a resolution adopted when the trial began. Senator Robinson (D) of Arkansas, added that the leaders felt a vote in secret, with the record left thrown open to public inspection, would expedite the proceedings.

MacCracken, for several years secretary of the American Bar Association and now a lawyer-lobbyist for a number of big aviation companies, was convicted 64 to 20.

Before his guilt was decided by this overwhelming vote, the senate defeated 62 to 22 a resolution seeking a transfer of his case to the courts.

The resolution to jail MacCracken for 10 days carried 56 to 26. Brittin was convicted by a 65 to 18 vote and his punishment approved 60 to 21.

Hanshue was acquitted 45 to 35. Senator Black (D) of Alabama, chairman of the air mail investigating committee moved that Givvin be discharged from the contempt cases. This resolution was approved 61 to 18.

Better Lighting Sought In Schools

Eye defects in the New Castle schools are more prevalent than they are in most of the other schools in this part of the state, according to a report made to the school board by Dr. M. J. Baker, Wednesday night. These are caused by the archaic lighting facilities in the schools, the report states, and the matter came before the board for discussion.

"In the schools I have visited the lighting is bad," said Dr. Cleland "I don't see how the youngsters can get their work done properly." Director Griffith Thomas said that he had found lighting conditions bad also, and Dr. Green agreed with the report of the directors.

One of the projects now in course of approval in the CWA is for a lighting survey of the New Castle schools and a lot of rewiring will be done inside of the next sixty days.

TO USE AUDITORIUM

Approval was given to the Federation of Women's clubs Wednesday night by the School board, for the use of Senior high auditorium on April 4 and 5 for a performance.

Want Ruling On Pymatuning Dam

Is It To Be Recreation Center Or Supply Water For Industries

Industrial executives of the Shenango valley today indicated that state officials will be approached immediately to learn if any conflict is likely to arise as a result of the development of the Pymatuning reservoir, now rapidly filling with water, as a recreation center.

The local group, according to members today, will remind officials who will have control of the reservoir that it was planned and constructed for water supply and flood control purposes and will urge that nothing be permitted to interfere with the primary purposes in its development as a recreation center. Plans to bring the subject before the proper officials, it was said, resulted from the state's announcement that cottage sites will be leased and the controversy over the leasing of an island in the reservoir to the Western Pennsylvania Boy Scouts.

If the Shenango and Beaver valleys are to have an adequate water supply in periods of drought, the effect of releasing large volumes of water from the reservoir should be made known to those seeking leases, the local men declare.

His Stomach Ulcers Healed

M. H. Ramstead, a Wisconsin business man, reports that he secured a simple home treatment which quickly healed him of stomach ulcers, gas pains, indigestion and constipation after many years of suffering. He says he was so bad he was put on a strict diet, had begun to lose weight and could not get a good night's sleep. Now though years have passed, he still is in the best of health and can eat anything he wants. Mr. Ramstead is so grateful for his own recovery that he wants every sufferer to try this splendid treatment without cost or obligation. If you suffer, just send your name and address to M. H. Ramstead, Dept. 65, Box 1925, Milwaukee, Wis. He will tell you all about his own experiences and send you a free trial treatment. Write him today. Adv.

Inspection Noses Out Mechanicals

Win Out In Last Period 22-20 In Thrilling Game On
Wednesday Night

COLD DRAW BEATS FINISHING NO. 2

ELLWOOD CITY, Feb. 15.—Local sport fans were treated to two fine games at the Shelby auditorium last night when the Cold Draw team bested the Finishing No. 2 passers after a hard battle. In the second game of the Shelby league race the fine Inspection cagers nosed out the Mechanicals 22-20 in as thrilling a game as anyone would want to see.

For two quarters all the Cold Draw could do was to barely keep ahead of the persistent Finishing No. 2 team. After holding an 18-14 lead at half-time the Cold Draw unleashed an offensive that netted them 8 points to their opponents none, making the count 26-14 at the end of the period. Both teams resorted to defensive tactics in the final chapter and scored two points apiece to make the final score 28-16.

Ferruci and Leyda played splendid games for the victors, scoring 10 and 8 points respectively. Horton and Seigrist were best for the losers.

At the sound of the first whistle in the second game fans were aware that this was to be a close contest. Bill Weiskopf's Mechanicals gave the Inspection some running around. The lead was close throughout and changed hands continually. The count was 6-6 in the first quarter. 13-12 for the Inspection at half-time, 18-16 for the Mechanicals in the third quarter. The final period was fast and furious as the Mechanicals strove desperately to cling to their slim margin. The score was deadlocked at 20 all with little time to play, when Freidhoff put in the winning tally from mid-floor. Freidhoff and Arnold divided scoring honors with ten points apiece. Fitzgerald played a fine game for the Inspection also, and Stasick and Schuller did well for the Mechanicals.

There will be two more games at the auditorium on Friday night.

Make this lip test

LOOK at them...and your cheeks, too, without make-up. Do they possess the natural glow of health, which comes from a sufficiency of rich, red blood? If they do, make-up is simple...if they don't, read on...you may find one of the reasons why your skin is not clear.

It is well to remember that you cannot have red lips, rosy cheeks, good health, energy and cheerfulness if your blood is in a run-down condition. Lack of hemo-globin, the red coloring of the blood, may also indicate a weakened condition of the body...loss of strength...poor appetite.

Neglect of diet, worry, overwork, colds or sickness, frequently break down and retard the natural development of the red-blood-cells and their oxygen-carrying hemo-globin.

Why not set in motion the rebuilding of those all-important blood-cells instead of procrastinating and sacrificing your appearance and the feeling of being well and fit?

S.S.S. is not just a so-called tonic...it is a carefully prepared tonic with special properties designed to stimulate gastric secretions, and also having the mineral elements so very, very necessary in rebuilding the oxygen-carrying hemo-globin of the blood. If your condition suggests a blood and body tonic of this kind, try S.S.S. Its value has been proven by generations as well as by modern scientific appraisal.

Wall Street To Oppose Measure

Many Proposals In Stock Exchange Regulation Bill To Be Combated

(International News Service)
NEW YORK, Feb. 15.—Wall street today launched a wide drive on the stock exchange bill as developments at the public hearings in Washington raised the hopes of modification of its drastic provisions.

Richard Whitney, president of the stock exchange, took the leadership in the campaign by circulating the presidents of the 850 corporations listed on the big board and 1,375 members of the exchange.

Whitney in his letter to the corporation heads emphasized the widespread effects of the bill and declared its enactment would put the federal trade commission in the position to dominate and actually control the management of each listed corporation.

Wire houses joined the campaign by notifying managers and partners in branch offices of the features of the measure held objectionable, and urged them to stress these in an effort to mould public opinion.

Other security markets are expected to participate in the drive tomorrow, when representatives will gather here for a meeting of administrators of the code of fair competition for stock exchange firms.

Some brokers are seeking to have action on the bill postponed until the 1935 session of Congress. In the meantime a committee would be empowered to investigate the effects of the present measure.

Will Continue Tax Exemption On Bonds

By WILLIAM S. NEAL
International News Service Staff Correspondent

WASHINGTON, Feb. 15.—Prospect of legislation at this session to end the issuance of tax-exempt bonds faded today when the administration blocked consideration.

While the question may be expected later by the house ways and means or judiciary committee, leaders agreed that no action is likely in the near future.

With billions of dollars in new securities to be floated, the treasury was reported to be fearful of the legislation's effect on the bond market.

At least, legislation would force higher interest rates at a time when the president is seeking generally lower interest rates.

After a hearing by Mayor Charles Mayne, McClain and Collins were held pending disposition of the cases. The former suffered a knife wound on the hand and Collins a lacerated face.

McClain alleges that Barnes, a brother-in-law, stabbed him in the hand at the home of Jesse Jones, also colored, where a birthday party was in progress.

Collins is alleged to have been intoxicated and to have run against the glass in a door at the home of Mrs. Mattie Young, also colored. McClain and Collins received treatment at the New Castle hospital.

LEAVES TODAY
Miss Ida Flala, daughter of Mr. and Mrs. Angelo Flala of 913 Winslow avenue, will leave today for the St. Francis hospital in Pittsburgh, Pa., where she will soon start her new duties as a student nurse.

Western Pennsylvania amateur boxing champs of eight divisions will meet a similar aggregation from New Jersey, Monday night at Pittsburgh and on March 2, here, Ray Atkinson, popular Ellwood City welterweight and Eddie Douglas, colored, Youngstown, will clash in an amateur show to be staged by the Jefferson Athletic club at King Humbert hall. There will be five other bouts. All of the visiting boxers are trained by Vince Joyce, Youngstown.

Mountaineers of West Virginia warmed up on Washington & Jefferson 44-19 at Morgantown last night.

Averaging one billiard an inning, Kinney Matsuyama, the national champ, yesterday delivered a telling blow at Allen Hall's hopes of taking the world's three cushion billiard championship as he handed the Chicago contender his second defeat in seven matches. The Jap outplayed his more experienced opponent to win 50-35 in 50 innings. The victory sent the national champ to sixth place and Hall dropped to fifth place.

Earl McNeely, manager of the Sacramento, Calif., club of the Pacific Coast league, has bought the club.

Tony Ross, former heavyweight, who resides in Pittsburgh, was a visitor to this city yesterday. He circulated among friends of whom he has many. Tony has been taking things easy since he underwent a serious operation but said yesterday he is rounding into form. Tony fought all the best heavyweights in the country and met Jack Johnson in a six-round exhibition match when Johnson was the world's heavyweight boxing champion.

St. Vincent avenged a past defeat by beating Waynesburg Jackets 31-30, at Latrobe last night.

Johnny Banko, West Pittsburg lightweight, is knocking 'em 'dead' in Forest army camp bouts, according to Bob Latrobe. Fiorelli, wire-haired fox, has been added to the card. Tony Cucinello, second baseman, has returned a signed contract to Brooklyn.

Baseball Team Managers Meet

Ten Teams Are Expected To Send Representatives To Session

Baseball representatives of 10 teams, according to Bill Andrews, former sheriff and actively engaged in the promotion of baseball, will meet tonight at the Sport Goods store. Efforts will be made to form a fast County league. One of the stipulations that will probably be insisted upon is that the teams place a healthy forfeit to go through the season. Absence of this last summer caused plenty of grief. The meeting will start at 7:30 p. m.

San Francisco Wants Babe Ruth

Coast League Team Offers To Pay \$35,000 Salary If Ruth Will Play In California

(International News Service) ST. PETERSBURG, Fla., Feb. 15. Babe Ruth doesn't know anything about an offer by the San Francisco Seals to borrow him from his New York Yankee owners next season, he said today.

The swat king was encountered as he returned to the clubhouse at the Jungle Golf club after an 18-hole round.

"Haven't heard anything from them," said Ruth. "How can I say anything about something I know nothing about?"

"I've signed with the Yanks, and that's all there should be to the story."

Earlier this week the San Francisco club offered to borrow Ruth from the Yanks and pay him \$35,000 salary.

Titans Leading Tri-State Loop

Westminster Has Five Victories And No Defeats In Tri-State League

Geneva In Second Place; Bennett Leads Scorers In Conference

Westminster college basketball team is leading the Tri-State conference with five victories and no defeats, with Geneva in second place. It was revealed by the standing of the league. West Bennett, the league's leading scorer, Bennett has scored the grand total of 104 points in five league tilts, for an average of 21.2 per game. His closest rival is Little of Geneva with 54 points or an average of 10.8 per game.

Titans Near Title. The Titans can win the Tri-State title should they upset the Genevians at Beaver Falls, and after what happened at New Wilmington this shouldn't be such a hard trick.

Then, of course, there is Waynesburg, Thiel and Grove City to worry about yet, but these teams should be taken in stride by the wonder team coached by John D. Lawther. Following is the standing of the Tri-State and the 12 leading scorers of the league:

New Contract Is Made With Coach Bridenbaugh

Philip H. Bridenbaugh will continue to direct athletics in the New Castle Senior High School for another year. At the meeting of the New Castle School board Wednesday night a new contract was authorized to run for one year at a salary of \$2880 for coaching services. This has nothing to do with his contract as a teacher in the Senior high school.

Previous contracts have been for three years but the new contract was made for one year at the request of both Mr. Bridenbaugh and the Athletic council. Neither party to the contract wanted to be tied for three years in the face of continual changing economic conditions.

Tonight at the Falcon hall on Miller avenue, the Polish Falcons will play the strong Ambridge team in a Falcon league game. The Polish Falcon Reserves will play the Ambridge Reserves in the preliminary game starting at 7:15 o'clock, according to Athletic Director Marion Kolodjeski.

The New Castle Falcons hope to win from the Beaver County quintet tonight and advance a notch or two in the league standing. The Ambridge team is one of the best in the league and will give the locals a tough battle.

Mars At Union Friday Night

Union High Can Cinch Section 18 Title By Victory Over Mars Friday

Union High school basketball team will have its hands full Friday night when Mars high, contenders for the Section 18 title, will play at the Union High gym. The game had all the earmarks of a championship affair. The battle will start at 8:15 o'clock. There will be a preliminary game starting at 7:30 o'clock. Union defeated Mars at Mars earlier in the season in an upset victory, and the Boydmen hope to turn the trick again tomorrow night, and incidentally, it was the only defeat administered to the Mars team this year. So Mars is anxious to stone the setback. A real lively battle is being looked forward to by both teams.

Union Needs Victory

Coach Dave Boyd will stick with his starting lineup of Boron and Monico at the forwards, and Schaaas at center, with Morrison and White at the guards. If Monico is not able to play the charges are Boyd will pick out young E. Todd, the youth who made 13 points against Slippery Rock the other evening. The Union fans are quite interested in the team now that the straight game record has been run to eleven, and the Union High gym will no doubt be packed to capacity when the school-boy teams trot out on the hardwood surface. The Unionites were given a final polishing by Coach Boyd Thursday afternoon. The Blue and White shirted Union players want to defeat Mars, and will strive toward that ultimate goal.

Wampum Defeats Enon High 35-21

Eversole And Ferrucci Lead Wampum In Victory Over Strong Enon Valley Team

Wampum High School basketball team handed the Enon Valley High quintet a defeat last night on the Wampum floor, to the tune of 35 to 21. The game opened by Kosier making a clean field goal. Then Ferrucci, the curly headed flash, flipped two through the hoops. Enon added 3 fouls making the score 6 to 3. The Wampum boys kept the lead for the balance of the game.

The half ended 12 to 9 with Wampum still going strong. The Wampum boys seemed determined to stop the long winning streak the Enon boys have had. The work of Eversole, Ferrucci and Novalesi was best for Wampum. Watt and McRoberts looked best for Enon.

Steve Hamas In Big Money

"Who's Afraid Of Big Bad Wolf" Says Steve Hamas
Headed Toward Real Coin

FIGHT OFFERS ARE PILING IN

By PAT ROBINSON
International News Service Sports Writer

NEW YORK, Feb. 15.—How would you feel if you'd been playing the cakes and coffee route for years and somebody suddenly dropped you in soft on the champagne and caviar circuit? And how would you react if a bank president opened his vault and said "help yourself."

Exactly. Then you know just how old Charley Harvey and Steve Hamas feel today.

Talks Big Money

Two days ago Hamas of Penn State was just a run of the mine heavy-weight with a pair of crippled legs. He was headed nowhere and getting there fast. Old Charley would have sold his manager's contract with Steve for \$100.

But that was before Steve shocked the three to one gamblers by grabbing the duke against Max Schmeling and today—well, when I met old Charley hobbling down the street on that trick cane of his this morning he was pricing country estates.

"There's millions in that boy" bubbled Charley, "millions." I tell yuh, two or three more fights, then a shot at the title. We win that and then, oh boy, a country estate on Long Island, a winter palace in Palm Beach, a hunting lodge in the Adirondacks and maybe one of them there French chateaux. That's our program."

Many Offers

But this time old Charley, who was almost too old to run at Bull Run, was stuttering so badly he nearly lost his store teeth, but he recovered in time to point out that he had the following offers today for more fights.

From Jack Dempsey, a bid to meet Max Baer in June in either New York or California.

From Nate Lewis, an offer to swap punches with Art Lasky in Chicago.

From Madison Square Garden: a fellow for Steve to battle the winner of the Levinsky-Neusel fight, and the survivor to get a crack at the title.

From the Kerosene circuit: all kinds of offers to meet local prizes.

"But we ain't rushing into any of 'em" explained Charley. "We'll just let nature take its course and when the gravy's being spilled we'll be there to get ours."

Leckwart Named As Boro A. C. Head

John Leckwart was elected president of the Boro A. C. at a recent meeting. The Boro A. C. is making

big plans for the coming baseball season.

The secretary and treasurer of the Boro A. C. for this year will be LeRoy Anderson. Jack Pardick was named as business manager of the Boro A. C. baseball team, and John Shoaft was named as manager. The Boro A. C. will have a first class team on the field this year.

The Boro will start to work on a new playing field as soon as the weather permits. The next meeting of the Boro A. C. will be held Tuesday night February 20th, at the Boro fire department.

Geneva-Bethany To Meet Tonight

Geneva Recovering From Stunning Defeat Handed Them
At Westminster Monday Night

BEAVER FALLS, Feb. 15.—Embittered by the crushing league defeat suffered at the hands of the Westminster Titans on Monday night, the Geneva Covenanters are in a mood which bodes no good for the Bisons of Bethany College. Geneva meets the Bisons here Thursday night in a regularly booked Tri-State Conference game. It marks the first appearance on home soil for the Geneva since January 18.

Up until the Westminster melee the Geneva were traveling at a clip which greatly boosted the seasonal percentage. Now they are in a position to start over, meanwhile preparing for a return crack at the Titans when they invade Beaver Falls in the near future.

Despite the recent defeat at New Wilmington and Akron, the Geneva will be favored to register their fourth league victory against the Bisons. The invaders lack consistency although their brand of ball has perked up a good deal of late. In the Salem game of Tuesday night Bethany flashed some excellent play at several stages of the game. If they could maintain a steady output of this type of play then Geneva would be in for a great deal of trouble. As it is the dopsters figure Geneva will outlast their rivals and wind up with a comfortable edge.

The play of Tommy Hurley reserve forward and guard against Westminster, may cause Coach Loeffler to shake up his starting lineup. In all games since the start of 1934 Loeffler has employed Ginsberg and Penabaker as forwards, Schmitz at center and Graham and Littell in the rear court. Hurley may relieve Penabaker as a starting forward.

Vernon Gomez Is Serious Holdout

(International News Service)
NEW YORK, Feb. 15.—Officials of the New York Yankees revealed today that Vernon Gomez, star left-hander, wasn't fooling when he announced in Chicago the other day that he wouldn't play ball for the money the Yanks had offered him. Gomez's unsigned contract came back in the mails today along with the signed agreements of five other members of the club. The signers are Sam Byrd, outfielder; Johnny Broaca, Marvin Duke, Jimmy Deshong and Vito Tamulis, pitchers.

day Buoyed Up By Hopes
Of ModificationRAIL STOCKS
UP TWO POINTS(International News Service)
NEW YORK, Feb. 15.—Buoyed by the hopes of modification of the regulation bill, stocks resumed their advance today with gains in the principal issues running to more than 2 points in fast trading which threw the ticker 3 minutes behind.

Silver and mail order shares were in the van of the upturn. United States Smelting was again the prime favorite in the silver shares, getting up nearly 2 points. American Smelting, Cerro de Pasco and other mining issues scored lesser gains.

Montgomery Ward was the outstanding feature in the mail order shares, getting up to a new high for the year and the best price in more than years.

Indications of further improvement in car loadings brought renewed demand for the carrier shares which rebounded from fractions to nearly 2 points under the leadership of Union Pacific, New York Central, Southern Railway and Illinois Central.

Commodity markets, however, failed to provide any stimulus to stocks. Wheat, corn and the other grains opened barely steady around their previous close with trading light. The cotton market showed a steadier tone and advanced about 5 cents a bale.

General Motors and Chrysler were strong with the latter getting up more than a point. Auto accessory shares were strong in sympathy. Renewed selling was apparent in the air stocks with United Aircraft off more than a point.

POWERS PLAN TO
CONFER ON MOVE
TO SAVE AUSTRIA

(Continued From Page One)

The Austrian crisis, it was learned in official circles today.

The subject of the exchanges was not disclosed, but it is believed both Berlin and Rome sought to learn exact details for Britain would do if any other power intervened in Austria.

To Learn Hitler's Intentions
London, Feb. 15.—The British cabinet disarmament committee met today and gave final instructions to Captain Anthony Eden, under-secretary of state for foreign affairs, to be followed on his tour of European capitals in the interests of disarmament.

One of the chief purposes of Capt. Eden's trip, on which he will leave tomorrow, will be to learn at first hand in Berlin exactly what Chancellor Adolf Hitler's intentions are regarding Austria.

By WILLIAM PARKER
International News Service Staff
Correspondent

Paris, Feb. 15.—Formation of an international army, directed by the League of Nations, to guarantee Austria's independence, will be discussed here tomorrow by representatives of the French, British and Czechoslovakian governments, with Italy being kept informed of the developments.

Capt. Anthony Eden, under-secretary for foreign affairs, will act for Great Britain and Foreign Minister Edouard Benes for Czechoslovakia. The discussions will take place at the foreign office.

The suggestion was made in government circles today that it probably would not be necessary actually to send armed forces across the Austrian frontier but that the placing of Italian, Czechoslovakian and Jugoslav detachment near the border and subject to Chancellor Dollfus' call would have a salutary effect upon Nazi elements eager to convert Austria into a German province.

It is feared here that the Austrian Heimwehr troops will be exhausted if the civil war against the Socialists is prolonged many days.

Must Be League Action

France will insist at tomorrow's conference that any action taken must be under the supervision of the league. The danger, as some officials here see it, is that Italy and Czechoslovakia are watching each other, that if one sends troops across the Austrian border the other is certain to follow and that the resultant complications might lead to war, particularly if Germany followed up the Czechoslovakian move by marching herself.

Capt. Eden, who ostensibly is on a tour of European capitals in the interest of disarmament, will inform Chancellor Hitler of the outcome of tomorrow's deliberations when he visits Berlin early next week, and of British, French and Italian disapproval of Nazi activities in Austria. That the Doumergue government is greatly worried over the Austrian situation was revealed after the first meeting of the cabinet. A Communiqué disclosed that Louis Barthou, foreign minister, was busy lining up other powers for concerted action, declaring Barthou had informed his colleagues "of the initiatives he had already taken regarding Austria with various countries."

Today, in presenting the new ministry to the chamber of deputies for the first time, Premier Doumergue urged that the budget be speedily voted.

Correct this sentence: "I could make all men good," said the reformer, "if I had the authority to use force."

Death Sentence
Is CommutedPresident Of Austria Changes
Death Decree On Ac-
cused Socialist(BULLETIN)
(International News Service)
VIENNA, Feb. 15.—Seven minutes before he was to have been hanged for engaging in fighting against government forces, Robert Kamape, 21 year old Socialist, this evening received a commutation of death sentence to life imprisonment from President Miklas.

The president's action provoked a sharp controversy in government ranks.

Vice-Chancellor Fey, who has been active in suppressing the Socialist opposition, insisted that severe punishment should be meted out to all captured Socialists.

After an hour's conference it was agreed to spare Kamape's life and Fey promised to reduce the number of Socialists tried by court-martial to the minimum.

For Testimony(International News Service)
WASHINGTON, Feb. 15.—Former postmaster general Walter Brown, Col. Charles A. Lindbergh and airmail operators whose contracts were cancelled, will be called before the house post office committee during the consideration of permanent airmail legislation.

Chairman Mead (D) of New York, said that invitations to appear before the committee would be issued after Rep. Kelly (R) of Pennsylvania declared that they should be heard.

"If these airmail operators are to be condemned without a hearing in the cancellation of their contracts, we ought to hear Mr. Brown, Col. Lindbergh and others," said Kelly. "They will be called," replied Mead.

Oppose Nazi Coup in Austria

While Foreign Minister Louis Barthou of France, right, and Premier Benito Mussolini of Italy, below, are keeping a watchful eye on the Austrian situation to balk a possible attempt by Germany at intervention, Sir John Simon, British Minister of Foreign Affairs, left, served notice on Hitler government that Great Britain will stand for German interference with Austria. Rehearsing as Airmail Courier

In order that they may not be too "green" at their new duties, as date approaches when U. S. Army will take over airmail, army officers are rehearsed in mail-handling procedure. Red Revolt on Blue Danube

This map shows the principal points where fighting broke out in Austria, resulting in heavy toll of killed and wounded as Fascist Heimwehr troops and Socialists battled. Heaviest fighting was at Linz, capital of Upper Austria, where a nine-hour battle raged. Vienna and its suburbs also saw fierce clashes, as did Graz, Bruck, Steyr and Eggenburg. (Central Press)

War Department Lobby Probe Is Brought To End

Indictments Will No Doubt Be Returned Against Number Of Prominent Lobbyists

(International News Service)
WASHINGTON, Feb. 15.—The grand jury's investigation of lobbying in the war department drew to a close today with the testimony of an unnamed witness.

Indictments against the lobbyists who, according to reports, approached the leading automobile manufacturers and offered to "sell their influence with the department in getting contracts," were expected to be returned next week.

Letter Revealed.
Joseph Silverman of New York, the only one of the lobbyists under investigation identified to date, entered the picture again today. He wrote Secretary of War Dern that he could save the government \$700,000 if he be allowed to make a bid to supply underwear for the CCC.

The letter was referred to the department of justice, which previously investigated Silverman's activities in the war department and presented its report to the grand jury. Following this investigation the department stated Silverman was barred from doing further business with the department.

Fingerprint Talk Heard By Phalanx; Banquet Date Set

Of the 2,500 fingerprint exhibits which police departments all over the country forward to the federal department of justice in Washington each day, 42 per cent are the prints of "repeaters." Chief of Detectives Willis G. McMullen told the Phalanx fraternity last night.

McMullen declared that it is almost an impossibility for a person to destroy his fingerprints. He demonstrated his point.

The fraternity plans to observe the sixth anniversary of the establishment of the New Castle chapter with a banquet in The Castleton on Wednesday evening, February 28.

The local unit was organized in 1928.

Depressions Has Made Students More Serious

(International News Service)
BOSTON, Feb. 15.—The business depression of the past two years has had one salient effect on college students—it made them more responsible.

Students today are "go-getters," they don't spend money as foolishly as in the past, and they have more recognition of the value of the dollar.

This was the observation of Edgar W. Pitts, of Boston University College of Business Administration.

To End a Cough In a Hurry, Mix This at Home

Saves Big Dollars! No Cooking!

Millions of housewives have found that, by mixing their own cough medicine, they get a purer, more effective remedy. They use a recipe which costs only one-fourth as much as ready-made medicine, but which really has no equal for breaking up obstinate coughs.

From any drugstore, get 2½ ounces of Pinex. Pour this into a pint bottle and add granulated sugar syrup to fill up the pint. The syrup is easily made with 2 cups sugar and one cup water, stirred a few moments until dissolved. No cooking needed. It's no trouble at all, and makes the most effective remedy that money could buy. Keeps perfectly, and children love its taste.

Its quick action in loosening the phlegm, clearing the air passages, and soothing away the inflammation, has caused it to be used in more homes than any other cough remedy.

Pinex is a highly concentrated compound of Norway Pine, famous for its healing effect on throat membranes. It is guaranteed to give prompt relief or money refunded.

SEVENTH WARD NEWS

Troop 4 Seeks To Attain New Honors In Test Work Ahead

Boy Scout Troop 4, a ward outfit, met Tuesday evening in the scouts' hall and, following the opening col-

or ceremonies, the group discussed new test work which it plans to take up in order to achieve a mark of higher honor.

All scouts are asked to take notice of the change of the meeting night from Tuesday to Fridays at 7 o'clock.

Patrols were dismissed to their corners where the collection of articles for the needy was discussed. Since President Roosevelt suggested this act as a "national good turn" all scouts are anxious to fill the request. All families are asked to cooperate with the scouts in the undertaking.

After a period of games and story telling the meeting was called to a close since the stories told seemed to reek with aroma of fish.

The next meeting will be held next Friday night at 7 o'clock. Plans for the troop's recreation in the future will be discussed at that time.

LADIES AID MEETS

Wednesday afternoon the Ladies Aid society of the Madison Avenue Christian church met with Mrs. S. F. Turk, Liberty street, for the monthly session.

One new member was enrolled and plans were promulgated for an Easter supper, with Mrs. C. J. Bernhart, Mrs. C. H. Clark, Mrs. E. M. Jones, Mrs. Carl Houk, Mrs. J. W. Unangst and Mrs. Steve Hutnick in charge of arrangements.

After business the women enjoyed an hour of sociability, the hostess being assisted by Mrs. R. A. Franklin, Mrs. J. W. Unangst, when she served refreshments.

The March meeting will be at the home of Mrs. E. M. Jones, Mt. Jackson road.

32 TRAINS HALT AT JOINT DEPOT

B. & O.-P. & L. E. Terminal Has 22 In Daylight, Rest At Night

Thirty-two passenger trains—among them some of the finest in American railroad service—halt at the Seventh ward's B. & O.-P. & L. E. every 24 hours and in many cases, some of America's most prominent personages are aboard them as they pause here.

Since the opening of the joint depot last August the service on both roads has shown notable traffic gains, it is said.

Twenty-two of the trains are day trains while the other 10 arrive at night.

Well, He Won—And How He Won!

You Shiver At 10 Above But He Doffs Clothing For Fresh-Air Run

If you're cold now, don't read this. For the tale relates to a warm-blooded man—we'd think he'd have to be—who dog-trotted in undergarments from Liberty street in the ward to the B. & O. shops at New Castle junction and back as the cold held the mercury at 10 above.

Yes, folks, it was a wager—a wager the warm-blooded fellow won! It was \$1.00.

"We wanted to know his courage," one said, "and we found out. He was to dog-trot all the way—but we couldn't complain when we found him walking at one place. No, sree, not when it was that cold. Walking didn't make him warmer."

The runner signed a card with his wager brethren to release them from responsibility just in case sickness should set in. So far, so good.

Say President May Ride On New Train

Stream-lined Train Made 15-Mile Trip In 12 Minutes, Report

President Roosevelt may be a passenger this week on the Union Pacific railroad's stream-lined train which a throng saw Tuesday at the B. & O.-P. & L. E. depot, according to railroad reports.

Reports say that he may ride the train from Washington, D. C., to New York if he can find time from the press of duties. The train was enroute to the nation's capital when it went through yesterday.

According to information learned here, the train, on a trial speed run between Ravenna and Newton Falls, O., a 15-mile distance on the B. & O., covered the distance in 12 minutes.
